Summary

Final-year B.Tech (CSE – AI & ML) student with hands-on experience in Django-based web development and machine learning projects. Skilled in Python, NLP, and building practical applications. Seeking an entry-level software engineering role.

Education

Andhra Loyola Institute of Engineering and Technology

2022 – 2026

B.Tech in CSE (AI & ML), CGPA: **7.95/10**

Skills

Languages: Python, SQL

Backend: Django

Web: HTML, CSS

AI/ML: Machine Learning, NLP (TF-IDF), Scikit-learn, NumPy, Pandas

Databases: MySQL, SQLite

Tools: Git, GitHub

Core Subjects: DBMS, Operating Systems, Computer Networks

Projects

SmartECG – Secure Arrhythmia Detection Web App

Python, Django, Scikit-learn

- Developed ECG-based arrhythmia detection system using Random Forest with feature extraction from ECG signals
- Integrated explainable AI and SHA-256 based secure medical record storage

ElectroShop – E-Commerce Web App

Python, Django

- Built full-stack e-commerce platform with authentication, cart, and admin panel
- Implemented product management and user functionality using Django

AI Resume Screening System

Python, Django, NLP

- Developed web application to automate resume screening and candidate shortlisting
- Implemented TF-IDF and cosine similarity for resume-job matching

Experience

Generative AI Intern – SmartBridge

2025 – 2026

- Worked on AI/ML models and prompt engineering

Web Development Intern – APSSDC

2025

- Developed authentication and CRUD modules using Django

Cybersecurity Intern – Supraja

2024

- Learned vulnerability detection and secure coding practices

Certifications

- Machine Learning – NPTEL
- Deep Learning – NPTEL
